

Genomic map of chromosome 12p11.23 showing the CCNT2-AS1 locus and surrounding genes. The map includes the CCNT2 gene, its antisense transcript CCNT2-AS1, and various other genes like MGAT5, TMEM163, MAP3K19, RAB3GAP1, ACMSD, LOC100129961, ZRANB3, R3HDM1, MIR128-1, LOC100507600, UBXN4, LOC101928243, and CXCR4. A blue line indicates the CCNT2-AS1 transcript, and a vertical blue line indicates the CCNT2 gene. The map also shows the positions of several DARS and MCM6 genes.
